Education

Master, Special Pedagogy

Hobby

My interests span a diverse range, from exploring different cultures through travel to fostering inner peace and mindfulness through meditation. I am also passionate about delving into the intricacies of human behavior and psychology by reading various psychological books. On the professional front, I

have a keen interest in frontend development, where I enjoy creating visually appealing and user-friendly interfaces. Moreover, I am enthusiastic about the dynamic and innovative landscape of the IT industry, constantly seeking to expand my knowledge and skills in this ever-evolving field.
